ENCLOSURES: Annotated photograph of Baturin Chemical Plant

ORR REQUIREMENT NO. RR/HTA/E/R90/56: Determine changes since 1944 in the physical layout of the Baturin Chemical Plant, Ivanovo, USSR.

REMARKS:

The following changes in the Baturin Chemical Plant have taken place since 1944. (See accompanying annotated photograph.)

1. Six reported sulfuric acid production buildings have been removed from the north central section of the plant. Only the original tall stack remains standing. Two other small buildings in this section have been removed.
2. Twelve new buildings have been constructed which include one probable processing building (55'x 65'), five probable storage buildings of various sizes (25'x 130' to 45'x 130'), and six miscellaneous small buildings.
3. One processing building, doubled in size, now measures 185'x 50'. A 45'x 55' addition has been made to another processing building.
4. Three storage tanks, 25' in diameter, have been added to the plant.
